Sir:

Pursuant to 37 C.F.R. §1.56, §1.97 and §1.98, a document that may be material to the examination of this application is listed on the attached PTO-1449 form. A copy of each document is enclosed.

No inference should be drawn that the attached list represents a comprehensive investigation, or that any disclosure in the listed document is equivalent to the subject invention. The listed document was cited on page 1 of the specification.

The cited document discloses numerous specific features. There has been no attempt to enumerate each and every feature disclosed by the document. The Examiner is requested to review the document and to determine the extent of the materiality of the document disclosure, if any, with respect to the present invention.

The discussion of any art and the citation of any document herein is not to be construed as an admission that the art or document disclosure is necessarily within the invention field of endeavor, that the art or document disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that the art or document disclosure is otherwise necessarily prior art as defined by the patent law with respect to the instant invention and application.

The right to later set forth how the claimed invention is distinguished over the disclosure of any document or other art, including the disclosures of the art and documents recited herein, and those that may be cited by the Examiner in rejecting a claim in the instant patent application is reserved.

The recitation herein of the art and documents is not to be construed as an assertion that more pertinent art could not possibly be in existence.

Respectfully submitted,
